

May 7, 2006

I personally want to thank all of you for attending our celebration of the return of our renewed and refurbished pipe organ. I was delighted that so many people came to enjoy the day with us which included worship together and the afternoon concert. I look forward to many years of wonderful music shared in worship and other special events. I truly believe music can cross all barriers to feeling the love of God. It truly is God's universal language.

I thank you also for your part in helping us achieve this momentous goal in our church family. It truly was worth the wait. I also enjoyed our visit to your company and to witness the great detail it takes to achieve the final product.

Thank you all.

Gratefully yours,

Sandy Engelman
Grove City UMC
Chairman of worship
