RE: Bunn=Minnick Company

To whom it may concern:

As Music Director of St. Cecilia Parish, Cincinnati, I have had the opportunity to enjoy a 35-year professional relationship with Bunn=Minnick Company.

In 1980, Bob Bunn and Phil Minnick were chosen to perform the restoration of our 50-year old WurliTzer pipe organ and expand the instrument to twenty nine ranks adding an exposed great. This restoration and expansion made the instrument one of the premier organs in the city.

Over the past 35 years, the Bunn=Minnick Company has been our only organ vendor, with quarterly tunings and minor repairs. Their technicians are most professional, always available for any emergency (which is rare due to the quality of their work), adaptable to last minute schedule changes (funerals, etc.), and always friendly.

We have recently engaged the Bunn=Minnick Company to perform restoration work needed on the organ after 35 years of use. They have bent over backwards to fit the scope of work around our busy church schedule of weddings and other major liturgies in order not to have the organ completely down at any time.

I know Bob and Phil personally, and have always been impressed by their knowledge, professionalism, honesty and dedication to mission of our church. They are true gentlemen in every sense of the word.

It has been my pleasure to work with them. In considering an organ company that can get the job done in a timely manner, with quality workmanship and professional technicians, the Bunn=Minnick Company is my recommended choice.

Bob Kellison
