Dear Bob and Phil:

This is a long overdue letter of commendation for the superb renovation of our church organ in October of 1988. My apologies for being so remiss in expressing my personal thanks for a job well done.

During the time of the renovation your employees were most courteous and cooperative as, of course, you both have always been.

The effectiveness of the added ranks has been evident in the singing by the congregation, and even visitors to our parish have commented on the beautiful tonal quality of the organ. As for myself, it is a real pleasure to play such a beautiful instrument.

And so, belated as it may be, in the name of our present pastor, Father Jack McMahon and our parishioners, I wish to say "thanks" for your professional manner and workmanship.

I would definitely recommend your company to any church contemplating a similar project.

Sincerely,

Mrs. Mary Anne Blake
Organist/Choir Director
