Columbus, OH 43201

Dear Phil and Bob:

From A to Z (Antiphonal to Zimbelstern!), I am delighted with our new III/29 Bunn=Minnick pipe organ at Trinity Lutheran Church. The proposed specifications on paper were impressive enough, but the organ itself has far surpassed my expectations. It is an outstanding instrument--beautifully voiced and balanced--with remarkable range and versatility.

The casework, the console, the pipework design, the miracle of planning that put so much organ in so small a space, and the careful attention to every mechanical and tonal detail have culminated in the creation of an instrument that is thrilling to see, to play and to hear! It will be a continuing blessing for organists, the Trinity Church family and the Springfield community for many generations.

Warm thanks to you and the entire Bunn=Minnick crew and staff for your hard work, your quiet patience and good humor, your always courteous and caring response, and your steadfast commitment to excellence!

Very sincerely,

Helen Dunham, Organist
